

## About Mint

**Mint (Kanitta Wigraisakda)** is a bi-lingual singer, songwriter and composer based in Thailand known for her distinctive, soulful, warm and mellow characteristics that shaped up her own style, which was developed via her collective experiences in working with various skilled artists and producers in varieties of genre for over 10 years.

Though she may not yet be able to claim herself as a famous commercial artist in the ever expanding local music industry, she had managed to find her place to express her creations through her self-released debut LP, as well as on-stage at various indie music festivals such as Fat Festival, Tiger Translate, etc. In addition to her own material, her ability to adapt to various music genres has also

seen her vocal and lyricist talents to various artists' compositions; both local and international, including the likes of **DJ Yas** (KP Records/Hibashi Production - JP), **DJ Seed** (Hed Kandi's Winter Chill - UK), **The Photo Sticker Machine** (Hualampong Riddim - TH), **Cyndi Seui** (Smallroom - TH), **Kai-Jo Brothers** (Here - TH) and **Suharit Siamwala** (Black Sheep - TH), to name a few.

Passionate, creative and artistic, her love for music has also seen her taking a hands-on role in the fields of Artist Relations and Development, Marketing and Promotions, and Creative Production for music-related projects and musical events nationwide. With an intense understanding and knowledge of her work, from educational to commercial, backstage to production, from production to front man, Mint is no doubt one of the most versatile artists in the industry, and one to look out and listen for.
